

Description Generator

Overview

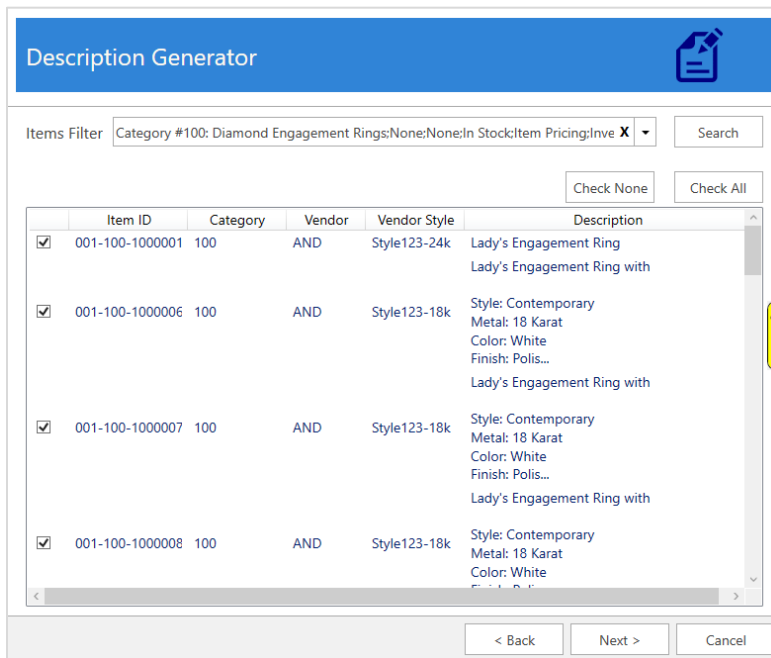

The **Description Generator** works in conjunction with the **Description Templates** feature. Templates can be designed for **Item Description**, **Web Title**, **Web Description**, and **Item Appraisals**. Once templates are setup, the **Description Generator** can be used to apply your template to many items at once.

For more information on creating these templates: <https://edgeuser.com/Knowledge/Knowledge-Base/inventory-description-templates>

Applying your Templates

To apply your templates:

1. Click **Inventory > Utilities > Description Generator**.
2. Choose which templates you wish to apply, then click **Next**.
3. Use the **Item Filter** drop-down at the top to specify criteria for items you want templates applied to, then click the **Search** button. A list of matching items will display.

The screenshot shows the 'Description Generator' window. At the top, there is a blue header with the title and a document icon. Below the header, there is an 'Items Filter' dropdown menu with the text 'Category #100: Diamond Engagement Rings:None:None:In Stock:Item Pricing:Inve X' and a 'Search' button. Below the filter, there are two buttons: 'Check None' and 'Check All'. The main area contains a table with the following columns: 'Item ID', 'Category', 'Vendor', 'Vendor Style', and 'Description'. The table lists four items, each with a checked checkbox in the first column. The descriptions for the items are: 'Lady's Engagement Ring', 'Style: Contemporary Metal: 18 Karat Color: White Finish: Polis... Lady's Engagement Ring with', 'Style: Contemporary Metal: 18 Karat Color: White Finish: Polis... Lady's Engagement Ring with', and 'Style: Contemporary Metal: 18 Karat Color: White Finish: Polis...'. At the bottom of the window, there are three buttons: '< Back', 'Next >', and 'Cancel'.

	Item ID	Category	Vendor	Vendor Style	Description
<input checked="" type="checkbox"/>	001-100-1000001	100	AND	Style123-24k	Lady's Engagement Ring Lady's Engagement Ring with

4. Check the items that you want templates applied to, then click **Next**.
5. The Wizard will now display any items you have selected that are missing one or more of your selected templates. If items are appearing here you should review their category setup to verify your templates are setup properly. Ideally, no items should appear in this list.
6. Click **Next**. The templates will now be applied.
